The Horse Whisperer's Secrets™

Build
respect and
trust between
you & your
equine mate

The Horse Whisperer's Secrets is continually *evolving*

The Horse Whisperer's Secrets is part of the transformation of Patrick Harris, and like Patrick, it is continually evolving.

"I have always loved my four-legged mates. Being brought up in a horse family, I seemed to always find myself riding a real horse, or the rocking horse to the laughter of my grandfather who never tired of me winning another Melbourne Cup.

"It's been said about me that 'He's short and fat, but don't worry, he knows his way around a horse. He's not the prettiest rider and not the best, but he gets results.'

"Having limitations has been a good thing, I guess. I always climbed on horses that were given to me by people who were better riders or physically more capable than me. But I always got results, and fast."

The Horse Whisperer's Secrets courses at Patrick Harris Horsemanship are not aimed just at people who are doing well.

This course is designed for men and women of all ages who would like to use a new and exciting method.

If you are a horse lover, and you have a project or you want to train many horses, this course will help you to understand basic and not-so basic concepts of training, as well as starting young horses, and how to keep you and your horse safe and free from sabotage or hang-ups which stop forward momentum.

Enrol now – and take your life to a whole new level of excellence

Patrick is a Master Practitioner and a Trainer of Neuro Linguistic Programming (NLP). The essence of NLP is the ability to model excellence, then to reproduce it. This is something Patrick has adapted to his work with horses.

The Horse Whisperer's Secrets is about programming *horses and people*. It is about *safety* and always making it home.

What Horsemanship is all about

- building trust and respect
- accepting your horse
- being able to understand how your horse interprets the world
- encouraging and rewarding the positive states, discouraging the negative
- establishing good strategies to move forward towards your goals

You can change your behaviour and the behaviour of your horse, using the skills learned during The Horse Whisperer's Secrets – to encourage forward momentum, ultimately stepping the relationship between you and your horse to a higher level.
